RACE 9

GRANT AND LEXI HAMILTON APPRECIATION, 365m

Stewards opened and concluded an inquiry regarding the boxing of Paying the Price in this event. Stewards noted prior to jump, with the green light activated, the handler of Shades of Rose(7) interfered with the closing of the roller door behind Paying the Price(4). This boxing had been difficult (greyhound leaning back in the starting box), the starter assisting the trainer. Mr Everett an associate of the trainer of Paying the Price was seen to close the roller door with his foot which was only fractionally open and simultaneously place his hand adjacent to the rear of the 4 box immediately prior to the race starting. As he undertook the above, the starter confirmed he had advised Mr Everett that he wasn't permitted to interfere with the starting boxes whilst in the hands of the starter. Tonight's inquiry related to GAR 105(10)(c) and a fine of \$100 was issued by stewards under GAR 156(f)(ii).

Other Matters	<p>1.Prior to Race 7, a 520m event (same as Race 8) during the pre race stir up stewards noted the red light at the start when illuminated had allowed the lure to trip the starting boxes to open. Manual starting was not able to be activated. After conferring with the starter stewards proceeded with a modified start protocol without impeding the integrity of the start process. Races 7 & 8 were so started after stewards had advised TAB control and negotiated revised start times. The Secretary Manager was requested to seek repair prior to the next meeting and make arrangements for manual starts to be an option going forward per normal starting box functionality. The above process delayed the originally scheduled start times of both Races 7 & 8 by approximately 5 minutes.</p> <p>2.An official warning was issued to trainer Ms.F.Goodwin & handler Mr.W.Everett regarding pre race boxing procedures. Future boxing of greyhounds they train to be monitored by stewards in the near future, particularly where multiple runners are engaged in the same race.</p>

The injury and incapacitation information in this report was reviewed by the Veterinarian present at the meeting and confirmed prior to publication.
